

# Partnership agreement

## Solution adapted to your needs

- > Laboratoire DERMSCAN and BIOalternatives signed a partnership agreement on February 21, 2001.
- > This synergy of skills offers a complete catalogue of *in vitro* and *in vivo* tests.

## Effective coordination

- > Complementary drafting of standard or customized protocols.
- > Improvement in the delivery dates for parallel *in vivo/in vitro* studies.
- > Simplified organization of *in vitro* and *in vivo* measurements.
- > Saving of a considerable amount of time as we manage for you the coordination of your *vitro/vivo* tests, whether they are basic or complex.

## Optimized service at competitive prices

- > Optimization of *vitro/vivo* tests.
- > Improvement of biochemical measurements.
- > Development of security files: alternative methods, patch-tests, toxicological expertise.

## Expert advice

- > Advice to find the best adapted methods to test your products: medicines, care creams, make-up products, foaming products, cosmetic actives ingredients, etc.
- > Information on changes in national and international legislation.
